

EcoDesign LOT 20 Compliant

ROUNDLINE Eco Våtrum

Small and efficient

Wet rooms like bath and shower rooms have the same high comfort demands as other spaces. Roundline Eco Våtrum heater has an electronic thermostat that provides a comfortable and even temperature that saves a lot of energy.

This is the smallest wet room heater on the market that has an electronic thermostat. It keeps a low surface temperature and its safety class is IP 24 (splash proof).

THERMOSTAT: Electronic

The electronic thermostat gives a temperature stability of $\pm 0,2^{\circ}\text{C}$ regardless of the outdoor temperature. Range of temperature 5-35°C.

FUNCTION

The temperature knob is located on the radiator's side with an arrow and 20°C marking. Lowering the temperature: The temperature can only be lowered with the thermostat knob. A LED light lights up when the thermostat turns the heater on. When the thermostat is running normally the LED light lights up every 40 seconds and is turned on as long as needed for maintaining a steady temperature. There are both daily and weekly pre-programmed programs to choose from.

ROUNDLINE IS A SAFE HEATER

Roundline has a low surface temperature. The heater has no sharp corners. Roundline must not be covered. For extra safety the Roundline Eco Våtrum is equipped with an overheating fuse which will be activated in case of overheating.

MAINTENANCE

The smooth front is easy to keep clean. Roundline is easy to swing out or detach when cleaning or restoring. Vacuum from underneath the radiator.

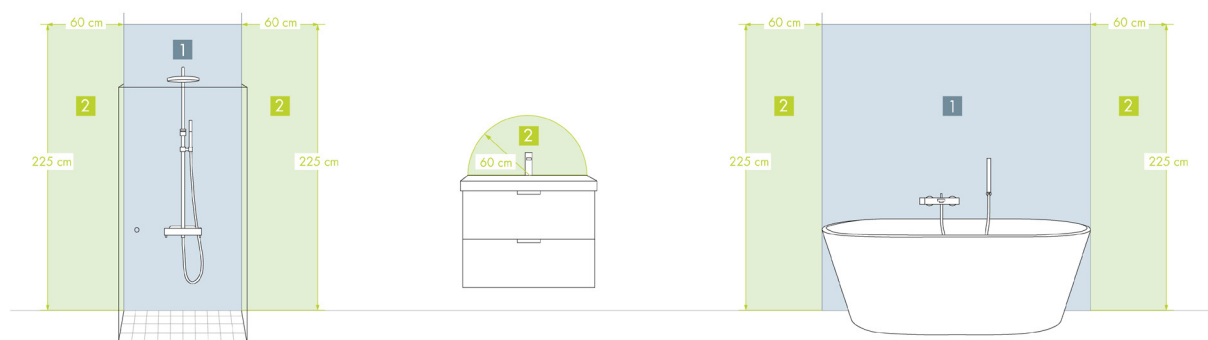

SERVICE AND WARRANTY

Please contact us if you have any questions.

Warranty: 2 years.
