

ROUNDLINE

Roundline with Stand

Excellent supplementary heat

Roundline with stand is an excellent supplementary heat source in smaller spaces. Stands are sold for the 200 mm high Roundline heaters that have plugged cable.

Stand Order no E 8511911

ASSEMBLY OF STAND

1. Insert the stand into the upper track (1).
2. Bend down the stand so that the pilot falls into place into the lower hole (2).
3. Force the stand upwards and screw in the locking screws (3).

NB. Do not use radiators mounted on stands near bathtubs, showers or swimming pools.
